Technical SEO Audit

Pricing  
Guide

## Overview

Technical SEO is the foundation upon which any successful optimization strategy is built. In order for your site to be crawled and indexed properly, you must have accessible content, good site structure and overall performance. Unfortunately, the technical aspects of your site performance aren't always apparent. Allegro's Technical SEO Audit will check for 100's of factors and alert you to any areas that are keeping you from reaching the top of SERPs. Our follow up call will help you better understand how certain factors affect your overall ranking and drive future SEO strategies.

## Pricing

\$499
